OBJECTIVE

Hopeful to have a Lasting, Meaningful Impact through Computer Science.

EDUCATION

San José State University **August 2025 - May 2029**

B.S Computer Science *San Jose, CA*

EXPERIENCE

Research Assistant Sep 2025 - Present

Reed Systems Group (San José State University) *San Jose, CA*

Disconnected Data Distribution. Working on the Disconnected Data Distribution (DDD) project in the Reed Systems Group at San José State University. GitHub

- Working on the Java-based backend infrastructure and connecting it to the Kotlin-based application UI such as working to effectively send server messages to individual Client applications.
- Actively developing backend infrastructure to send messages from server to client applications on the Disconnected Data Distribution (DDD).
- Helped add error messages to project UI on applications in the Disconnected Data Distribution (DDD).

PROJECTS

Web Crossword Generator

- Primarily developed a Web Crossword Generator website that allows teachers or other users to make topic-based crossword or word search puzzles and print them.
- Integrated LLM compatibility to allow users to generate the topic-based puzzles with an LLM of their choice.
- GitHub

InstaDM

- Developed an application which allows users to message on Instagram while blocking much of the more addicting functionality.
- Ported the app from MacOS to Windows.
- MacOS GitHub, Windows GitHub

Portfolio Website (https://rquader.github.io/PortfolioWebsite)

- Thoughtfully designed to convey my journey and document my projects, experiments, and experience with them.

COURSEWORK

Data Structures & Algorithms, Discrete Mathematics, Introduction to Data Structures,

Talking Back to Research: Critical Skills for Leaders

SKILLS

Technical Skills: Java, Git, Claude Code, Software Design, Team-Based Project Work, Problem-Solving
